

Benches and Seats

5 reasons why you should choose British Recycled Plastic

Extremely durable, strong and vandal proof, eliminating maintenance for lower whole life costs

Ultra low carbon footprint as made from recycled and recyclable waste

No need for paint or other harmful preservatives

Does not splinter, rot, crack or fade and is totally impervious to water, algae and insects

Can be worked just like wood

Whether you require maintenance free benches and seats for your school playground, are choosing street furniture for an urban development or improving the facilities for hospital grounds or factory canteens, parks or pubs, we offer a wide range of benches and seats in several sizes in standard, junior and wheelchair access formats.

Product Range

Ilkley

Sloper bench with arms

Heptonstall

Metal frame bench with backrest

Harewood

Moulded end seat with backrest

Ripponden

Backless Bench

Oakworth

Moulded end seat no backrest

Benches and Seats

British Recycled Plastic – Recycled Plastic Benches and Seats

Our range of outdoor furniture is attractive, vandal-resistant, weatherproof and designed to meet the most demanding applications.

All of our Benches and Seats are manufactured in the UK using 100% recycled mixed British plastic that would have traditionally ended its life in Landfill. They are also 100% recyclable at the end of their useful life, whenever that may be.

British Recycled Plastic Benches and Seats have a life expectancy of at least five times that of timber alternatives, with little or no visible wear and tear. As they are rot and algae proof, negligible maintenance is required and no painting or preservatives need to be applied.

Colours Available

Our Ilkley, Heptonstall, Harewood and Ripponden ranges are available in all black, all brown or with black frames and a choice of bright colours as below or you can combine all colours for a rainbow effect.

Name	Total Length	Seat Height	Seat Width	Total Height	Other info

Benches and Seats

British Recycled Plastic – Recycled Plastic Benches and Seats

Fixing Kits

Avoid the mess of mixing concrete or time consumed digging holes and protect your furniture from thieves and vandals with anchors. They are quick and easy to install and we have an earth anchor kit (for soft ground such as grass or earthed areas) and the ground fixing kit (for paved, slabbed, concrete or tarmac areas.)

Earth Anchor kit – Suitable for soft surfaces

Soft surface installation instructions are enclosed with the kits

Ground fixing kit – suitable for hard surfaces

and hard surface kit is supplied with a 120mm long thunderbolt with additional M8 coach screws that are 50mm long and are attached to 2 legs only (preferably opposing corners). Brackets are made from 4mm thick aluminium.
